PROFESSIONAL SUMMARY

Full Stack Developer with 1.7 years of experience in designing and developing responsive web applications using React.js, JavaScript, Spring Boot, REST APIs, and MySQL. Experienced in front-end development, API integration, database management, and building scalable end-to-end web solutions. Strong problem-solving skills with a focus on performance, maintainability, and user experience.

WORK EXPERIENCE

Junior Software Developer

Ranmars Corp | 01/2025 – 07/2026

Project: NarpaviTech Platforms Websites: <https://narpavitech.com>, <https://narpavitechmumbai.in>

- Developed and maintained responsive business websites using React.js, JavaScript, HTML5, and CSS3.
- Built reusable React components and modular UI architecture, improving maintainability and development efficiency.
- Implemented dynamic service pages, interactive UI components, and responsive layouts for enhanced user experience.
- Applied SEO optimization techniques including metadata management and Google Search Console integration to improve search visibility.
- Improved page load speed by 25% and reduced Largest Contentful Paint (LCP) through frontend performance optimization.
- Ensured cross-browser compatibility and collaborated with the team to deliver scalable, high-performance web applications.

Project: iBridge Website: <https://ibridge.org.in/>

- Collaborated with development team to build and enhance the iBridge website using React.js and modern frontend technologies.
- Developed reusable UI components and contributed to a scalable frontend architecture, improving maintainability and development efficiency.
- Applied responsive web design principles to ensure seamless user experience across desktop, tablet, and mobile devices.
- Implemented SEO best practices, including meta tag management and Google Search Console integration, improving website indexing and search visibility.
- Worked closely with team members to optimize frontend performance, enhance layouts, and improve application responsiveness across browsers and devices.

SKILLS:

- **Front end:** React.js, JavaScript, Redux, Context API, React Hooks, HTML5, CSS3/SCSS
- **Back end:** Java, Spring Boot, REST APIs
- **Database:** MySQL
- **Cloud & Hosting:** AWS (Basic), Square Brothers Hosting
- **Tools:** Git, GitHub, VS Code, Postman, Vite
- **Testing:** React Testing Library
- **Familiar With:** TypeScript, Python, Responsive Web Design, SEO Optimization

PROJECT:

E-Commerce Platform | React.js, Spring Boot, Spring Security, JWT, MySQL

- Developed a full-stack e-commerce application with user authentication, product catalog, shopping cart, and order management.
- Implemented JWT-based authentication and role-based authorization using Spring Security.
- Built RESTful APIs using Spring Boot and integrated them with a React.js frontend.
- Developed Admin Dashboard features for managing products, categories, users, and orders.
- Designed responsive UI components and implemented search, filtering, and pagination functionalities.
- Integrated MySQL database using Spring Data JPA and Hibernate for efficient data management.

EDUCATION:

M.Kumarasamy College of Engineering, Karur.

2022-2024

MCA (Master of Computer Applications) CGPA: 7.3

Kongu Arts and Science college, Erode.

2018-2021

BCA (Bachelor of Computer Applications) CGPA: 6.4

CERTIFICATES:

- Database management system in NPTEL
- SQL(Standard)- Skillrack.
